ABOUT ME

I hold a Bachelor's degree in Sports Science from Srinakharinwirot University, where I gained hands-on experience working as a Sports Scientist. Currently, I am furthering my education with a Bachelor's degree in Computer Engineering through an evening program. My passion lies in integrating technology with sports science to drive innovation in the field.

With my strong foundation in sports science, I understand the needs and challenges faced by professionals in the industry. My ongoing studies in computer engineering allow me to explore how technology, data analytics, and smart systems can enhance sports performance and scientific research. I am eager to apply this unique combination of knowledge in a Sales Representative role, helping clients find the best scientific tools and solutions to advance their work. I look forward to contributing my expertise and technical insight to support professionals in the field and drive business growth.

WORK EXPERIENCE
